

THE FUTURE OF HEALING

What is Cannabidiol (CBD)?

This cannabinoid is known as Cannabidiol (CBD), and is the second most abundant cannabinoid in cannabis. Research suggests that CBD could be used for treating symptoms of rheumatoid arthritis and other autoimmune diseases, diabetes, nausea, bowel disorders, just to name a few. CBD has even demonstrated neuroprotective effects, and its anti-cancer potential is currently being explored.

THE FUTURE OF HEALING

CBD For Life produces Cannabidiol (CBD) infused pain management and beauty products using 99% pure CBD extract derived from stems and stalks of industrial hemp with a THC level under 0.3%. We currently source our CBD from Germany using our proprietary German Extraction Method (GEM) and from the U.S. using Pharma Grade isolate from our provider CBD Pur US.

Our revolutionary formulas combine CBD with nourishing essential oils and other active ingredients to aid in reducing pain, inflammation, and stress while promoting anti-aging, rejuvenation, and vibrancy. Created with the healing powers of nature, CBD For Life's advanced technologies renew, hydrate, and restore the skin to a state of optimal wellness. CBD synergizes naturally with the body's endo-cannabinoid system creating ideal overall health.

CBD is considered an alternative natural treatment

MEDICINAL BENEFITS

CBD is the major non-psychoactive cannabinoid found in Cannabis. It is the principal cannabinoid present in fiber-type Cannabis (in the form of its carboxylic acid CBDA), a plant that is easily available to researchers, in contrast to the strictly controlled drug-type Cannabis varieties. Second to THC, the pharmacological effects of CBD have been best studied of all cannabinoids. It has notable anti-inflammatory and immunomodulatory effects. Furthermore, sedating, hypnotic, anti-epileptic, and antidystonic effects have been described. CBD is a modulator of some types of opioid-receptors, and can modulate sleep. The German Extract Method results in a high CBD product that tests lower than .3% THC.

BENEFITS OF INDIVIDUAL CBD - CANNABIDIOL

Controls certain cancers, eases pain, stimulates bone growth, stops growth of bacteria, suppresses muscle spasms and convulsions, slows inflammation, reduces blood sugar levels, reduces the risk of artery obstructions, decreases pressure in the blood vessel walls, helps control epileptic seizures, reduces risk of nerve damage, eases nausea.

CBD interacts naturally with your endocannabinoid system to strengthen the immune system and provide relief.

THE FUTURE OF HEALING

PAIN CARE

PURE PURE CBD ORAL SPRAY

Delivers a high level dose of hemp-derived CBD into your mouth with each spray, allowing for the most effective and quickest absorption. Feel relief wherever you are, just spray on the go.

Spray 2-3 times under your tongue, 3-4 times a day, or as needed.

.30 FL Oz 10 ml MSRP \$24.99

99% PURE CBD EXTRACT MENTHOL CAMPHOR PAIN RELIEF SPRAY

Provides exceptional relief without the side-effects of prescription pills. Lay back, relax, and inhale the effects of our soothing menthol and let your pain melt away.

Spray affected area with desired amount of product. No need to be rubbed in. Repeat as necessary.

4 FL Oz 120 ml MSRP \$26.99

ORIGINAL

LEMONGRASS

PURE CBD RUB

Our rub is the answer for aches and pains. This product roars powerful and melts away tension related to sore muscles.

Apply a small amount to any area that hurts and discover instant relief. Avoid contact with eyes and wash hands after applying.
